Dear Jim, the enclosed alleged Oswald to Hunt letter came in a typed envelope with initials, P. S. from Mexico. The letter also is initialled only. One immediate problem with this - and I've just glanced at it - that that Hunt was not in Mexico 11/8 and Oswald was in Dallas. After I can get a translation of the Spanish I'll see if a letter to P.S. at the given address gets a response. But if neither was in Mexico, how come the letter comes from there with a Spanish-language letter? HW 8/26/75
